

AMENDMENTS TO THE DETAILED DESCRIPTION

The Amendment was mailed via Express Mail (# EB 640615922, 01-25-08) and is to be inserted in the application at the end of the current Detailed Description. The content represents, in compliance with 37 CFR 1.71, a reformatting and restructuring of the non-compliant portion of the specification contained in the appendix (part A) that had previously been incorporated by reference, and was contained in both the original application, and in the provisional application for which benefit is claimed as indicated in the CROSS-REFERENCE section of the original application. As such, the amendment is not a substitute specification per 37 CR 1.125, but instead is merely a replacement composed of material extracted from the non-compliant appendix. In accordance with 37 CFR 1.121(d) and 37 CFR 1.57(f), these amendments introduce no new matter into the disclosure of the application.
